[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO SEPT. 12.

EASTERN STATES.

The Tammany Thieves.

NEW YORK, Sept. 11.—A great crowd assembled at the Court House to-day, to witness proceedings in the injunction suit against the city officials. Corporation Counsel O'Gorman appeared for the city officials, and said that his clients desired no delay and were ready to meet the charges. The personal counsel for Tweed desired delay, in order to put in a separate answer, as he had failed to secure any such statement of charges against him. The great crowd necessitated an adjournment to the Circuit Court Room, when the reading of affidavits began by O'Gorman. The affidavit on behalf of the Board of Supervisors was first read, and consisted generally of a specified denial of charges against them. It was signed by Oakey Hall, President of Board of Supervisors. O'Gorman next read a motion for a demurrer, to the effect that plaintiffs have not legal capacity to sue, and second, that the complaint does not set out cause sufficient to constitute a cause of action.

Gold and Bonds.

NEW YORK, Sept. 11.—The *Commercial Advertiser* says the price of 5-20s has not advanced with gold. They are now selling at 1½ to 1¾ per cent. below par in gold. Under the circumstances there is some talk that the squeeze in gold has been deliberately changed into interest of the Syndicate to enable them to buy 5-20s at a liberal discount below the payment which the Treasury Department secures for them.

The Saratoga Regatta.

SARATOGA, Sept. 11.—Six boats started in a four mile single scull race to-day: Saddlier, Ellis, Ward, Bagnell, Kelly, Biglin and Bright. Saddlier won; Kelly, second; Biglin, third. The dead heat for the third place in the four-oared race between the Biglin and Taylor Winship crews was not rowed, Morrissey settling the once by paying each crew $750.

Republican Triumph in Maine.

AUGUSTA, Me., Sept. 11.—A Republican meeting was held to-night to rejoice over the victory in the State and the remarkable triumph in this city. The Republican majority in this city is nearly three times as great as it ever was on so full a vote. Thirty-nine towns show a Republican gain of 1,000.

Later—Republican Gains.

PORTLAND, Me., Sept. 11.—Returns from 128 towns give Perham 3,427 and Kimball 24,045, making a Republican majority of 6,427. Last year the same towns gave Perham 28,647 and Roberts 23,265; Republican majority 5,382, being a Republican gain of 1,045. The Legislature will show a slight Democratic gain. Last year the Senate stood 28 Republicans to 3 Democrats. The House stood 112 Republicans to 39 Democrats.

Thiers on the late War.

NEW YORK, Sept. 11.—A Paris correspondent of the *Pall Mall Gazette*, 29th August, says Thiers is reported to have given a vast amount of information to the committee of inquiry into the causes and conduct of the late war. He found England, he said, desirous of acting with Russia, and when he got to St. Petersburg he met with sympathy from the population and the Czar, though he said he could not declare war. He was most favorably inclined toward France, but was bound, in some way, to Prussia. Every one at St. Petersburg assured him that the Cabinet at Berlin would accept reasonable proposals. Thiers then went to Italy and found that the King most distinctly favored France. He called a council of Ministers and Generals. Thiers said, "You have 300,000 men. March 100,000 men on Lyons. You are covered by Switzerland and the Alps, and will have nothing to fear by making a diversion in our favor." The King and his Generals were for adopting this plan but the Cabinet refused consent.

Financial Reports.

NEW YORK, Sept. 11.—Stocks firm. Western Union, 68; Quicksilver, 16½; Mariposa, 3½; Wells, Fargo & Co., 56½; Pacific Mail, 56½.

PARIS, Sept. 11.—Rentes 57 francs 75 centimes.

LONDON, Sept. 11.—Consols 93⅛@93¼.

BY ATLANTIC CABLE.

French Affairs.

NEW YORK, Sept. 11.—The Paris *Constitutionnel* says the Government is buying 500,000 chassepots from the Minister of War at Berlin.

A new election will be held in the Department of the Seine, Gen. D'Assy having chosen to sit in the Assembly from Ile et Villaine, where he was also elected.

According to the Strasbourg *Zeitung* the German penal code will be introduced into Alsace and Lorraine before the 1st of October.

Some of the continental journals state that the betrothal of Princess Mary Elizabeth, of Prussia to Grand Duke Alexis, of Russia, will before long be officially announced. The Princess is the eldest daughter of Prince Frederick Charles.

Dispatch from London.

LONDON, Sept. 10.—The strike in Newcastle is virtually defeated. At least half the usual number of operatives are now at work and a full complement will be obtained within a fortnight.

Napoleon arrived at Torquay this morning. He was received with much enthusiasm.

Paris Dispatches.

PARIS, Sept. 11.—Thiers proposes that the Assembly take a recess from the 17th inst. to the 1st of November.

It is now decided that evacuation will commence at Fort Charenton, which will first be delivered to the French by the German commander.

The Situation of France.

NEW YORK, Sept. 10.—The *Gazette* says that the present situation of France causes much affliction.

Garibaldi speaks with contempt of Victor Hugo, Louis Blanc and Jules Favre, and declares them old and worn out. His son, Ricotti, will soon return to Caprera and be married.

Menotti has devoted himself to the export business and seems to have absolutely renounced politics.

About the Surrender at Sedan.

NEW YORK, Sept. 11.—A foreign paper says General de Wimpfen, who succeeded Marshal McMahon in the command of the French army on the day it capitulated at Sedan, is strongly of the opinion that the army might, by a bold and sustained effort, have broken through the bands which encircled it at Sedan, and gives the following as the text of the famous letter addressed to Napoleon:

"SIRE—Rather than be imprisoned at Sedan, I have decided to force the line extended before the positions of Generals le Brun and Ducrot. Let your Majesty place yourself in the middle of your troops. They will hold it an honor to open a passage for you."

He suddenly discovered a flag of truce over Sedan. Had the Emperor followed his counsel a large portion of the army might have broken through. He states, when, by the Emperor's order, he opened negotiations with Prince Bismarck the latter demanded, as terms of peace, an indemnity of four milliards and the cession of Alsace and Lorraine.

Disquiet in South of France.

LONDON, Sept. 11.—A Paris correspondent of the London *Times* writes that disquieting rumors continue to arrive from Lyons, and we are beginning to receive from the south of France some accounts of the effect which the discussion on the dissolution of the National Guard produced on large cities in which that body still exists in full revolutionary vigor and force. The attitude of the population of Lyons, in particular, seems to be much like that of Paris during the few weeks immediately preceding the Commune. The government of the city is in the hands of the men of September, appointed by Gambetta, but there reigns above them, as there did here, a Committee of National Guards which meets in Faubourgs and elects its own officers and assumes much the same attitude as regards military authorities as battalions did in the early days of March.

A strong agitation in favor of immediate dissolution of the Chamber, is being carried on. Indeed, one is almost afraid from the looks of things in the south of France, that when the new elections occur, it will be a signal for a conflict which will prove how right those were who were in favor from the beginning of the disarmament of the whole body.

LONDON, Sept. 11.—The Welsh colliers refuse to continue work under strangers, until those recently imported supply places. Strikers are dismissed from the mines.

A Sensational Story.

NEW YORK, Sept. 11.—The Liverpool *Courier* has a story that a gentleman formerly a commercial traveler in Australia, some years ago was lost in the woods and found shelter in a herdsman's hut. The herdsman, in the course of conversation, declared that he was the son of a Baronet. Subsequently he returned to England, and when the Tichborne case was being heard, he recognized the claimant, as the herdsman of Australia. Afterward he had an interview with Tichborne and it is said he will be a witness for him when the case is resumed.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 12.—The Board of Supervisors by a ring vote refused to rescind the resolution appointing City Attorney Nounges special counsel to prosecute the property holders for second street cut assessments. The Mayor will veto the order and the requisite majority to pass it over his veto cannot be obtained.

Late last night Mrs. J. A. Barker's millinery store, 426 Kearny street, was burned out. The fire originated in the basement. Loss, $3,000. Insured. The store of Lezinsky & Abraham, next door, was slightly damaged. The building is owned by H. Prohl, and is considerably injured.

Later—A China wash house, barber shop and shoemaker shop, corner of Ninth and Mission streets, all one story frame houses, were burned.

Supervisor Kelly last evening presented a bill of $500 for meals, cigars and liquors furnished officers of election in the 12th Ward; second precinct, or at the rate of $167 to each man. The Board of Supervisors refused to allow it.

Houghton's majority for Congress in the First District (official) is 2,874.

OREGON.

Last week the house of Wm. Tatem of Polk county, was destroyed by fire. Loss, $1,000.

A Roseburg paper says: The road between Eugene City and this place is perfectly alive with men preparing the way for the railroad.

The average price paid for wheat in Yamhill is one dollar. About two-thirds of the farmers are selling; the remainder are storing to wait for higher prices.

The Tualatin and Canal Company have let the contract for the construction of their works to Capt. A. F. Hedges, and they propose to vigorously prosecute the work to completion.

The Jacksonville *Sentinel* says that several ladies of that place are taking lessons in equestrianship from a competent teacher. They have selected the Fair Grounds as their place of practice.

The *Statesman* advises the people of Salem to shut their doors in the face of the organ grinders, and save their money. The "grinder" now "doing" Salem is healthy looking, weighs something like 200 pounds and evidently could wield an axe or a shovel to good advantage.

THE TERRITORIES.

The Washington Territory Legislature meets on the 2d October prox.

The town of Walla Walla is overrun with Indians, who are frequently drunk.

Rev. W. H. Stoy, formerly of Portland, has taken charge of the Episcopal Church at Deer Lodge City, Montana Territory.

There have been six cases of small pox at Florence. The cases at Walla Walla came from there. G. W. Moody now has it.

A man named David Hardman was killed near Deer Lodge, Montana, a few days ago. He was riding on horseback when the animal stumbled and fell, falling on him.

The "railroad election" will come off at Walla Walla on the 18th. The *Statesman* says: The feeling in favor of the road is constantly growing, and if it fails to receive a three fourth vote, it will be for lack of information.

The Walla Walla *Union* thinks that the people of its county could more than make up the interest on the railroad bonds which they are asked to vote by the increase in the price of wheat that will be caused by the railroad.

The Nez Perce Indians have raised over 7,000 bushels of excellent wheat, and 8,000 bushels of potatoes, this season, together with oats in large quantity, besides the nation has vegetables enough to support the tribe abundantly.

POLITICAL NOTES.

The Boston *Traveller* already puts in a claim for Boston as the place of meeting of the next National Republican Convention.

In 1863 the cost of the New York City Courts was $139,200 per annum. Under Tammany this has been worked up to an annual cost of $661,500.

Two years ago the Democrats elected their Congressman in the San Francisco district by 3,551 majority. Republicans now elect his successor by a majority of 2,874. An unexampled political revolution.

There is mutiny among the employees of the New York city government. The *Citizen* (Dem.) says: "Hundreds of the employees of the city are not paid. Garvey gets his million, Keyser his two millions, and Ingersoll his five millions, but the poor clerks and laborers can go hungry. Not less than a thousand of the clerks alone have been left unpaid for more than a month."

About two hundred men met in Boston a few days ago and organized the American Union Reform Party. They declare for the thorough maintenance of civil and religious liberty, oppose the union of Church and State and all class legislation, and earnestly advocate reform. They invite the friendly co-operation of the National Reform Party recently organized in Baltimore, and request that it change its name to the name they have adopted.

Political reports from Ohio are of a highly encouraging character. That the State ticket will have a large Republican majority is undisputed. The contest is in regard to members of the Legislature in Cincinnati, Toledo and Cleveland, where the Sunday question has an influence which it is difficult to estimate. But for this, the Democrats would fight for the Legislature with as little hope as they do for the State officers. Pennsylvania is reported all right.

CURRENT NOTES.

The Postoffice Department does not redeem or purchase canceled postage stamps, under any circumstances whatever. And yet from time to time we hear of persons who are endeavoring to collect 1,000,000 stamps, in the belief that the Government will pay $300 for them—generally for some religious purposes.

The Nebraska State Immigration Agent for Denmark, Norway and Sweden, reports that there will be an emigration from these countries to Nebraska of over 10,000 this year, and that many will bring wealth with them, and will aid materially in developing the agricultural resources of the State. Letters are also being received from colonial organizations in Alsace, announcing a coming immigration.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

Falling out among the Tammany Thieves.

NEW YORK, Sept. 12.—The theft discovered yesterday in the Controller's office, was the exciting topic of conversation throughout the city last evening. There were various opinions in regard to who stole the vouchers and what they were stolen for. Some think the affair was one of the Ring's tricks for the purpose of forcing the Controller to resign, and this theory seemed to have acquired plausibility, when late last night it was announced that Mayor Hall had addressed the Controller a communication setting forth that he (the Mayor) was constrained to conclude that the exigency demanded his retirement from the head of the Finance Department in order that some other person might be placed there by the Mayor, who will be enabled to investigate the affairs of the Controller's office and restore public confidence.

The Mayor adds in the letter, that as he cannot suspend any head of the any Department pending investigation, and as charges could only be preferred to the Court of Common Pleas, which alone can remove after considerable time and a trial, he is compelled to throw himself upon the magnanimity of the Controller in the request made.

In Wall street, during the afternoon, a decline was produced in securities in which the Ring were especially interested. City stocks also fell. A feeling of distrust prevailed. Controller Connolly is greatly dispirited, as he had been diligently engaged last week in the preparation of accounts which the missing vouchers would explain. Many of the Controller's friends claimed that the vouchers were abstracted by some enemy of the Controller merely for the purpose of creating an erroneous impression that he was privy to their abstraction. It is asserted that for some time past Mayor Hall has been anxious to have Connelly's place filled by some other person, and that a breach has occurred in the Ring which placed Hall and Sweeney in coalition against Tweed and Connelly, and that the attack upon the latter two gentlemen by certain Democratic newspapers, and requests therein for their resignation were inspired by the former, who in the same newspaper articles were subjects of commendation rather than attack. It was believed that if Connelly had made way for some one else some of the gentlemen whose malversations documents in the Controller's office would reveal could thus be screened and a general hush up be probably produced all round.

The *World* says if the Controller disregards the demand of the Mayor he will find before night that searching public indignation will make the city too hot to hold him. It adds that it may be his misfortune, not his fault, that this alleged robbery of his department occurred just at this critical juncture, and it hopes the Mayor will be afforded opportunity to appoint his successor.

A dispatch from Washington says Mrs. R. B. Connelly on the 19th of last month transferred to her son-in-law half a million dollars in United States bonds.

The Suit against the Thieves.

NEW YORK, Sept. 12.—The audience in the Supreme Court to-day to witness proceedings in the Foley suit was much less than yesterday. At the opening of Court corporation counsel, O'Gorman, commenced reading the affidavits, which have been already published, bearing upon cases of defendant.

More about the Tammany Thieves.

NEW YORK, Sept. 12.—The police thus far have failed to discover a clew to the theft in the Controller's office. It is said duplicates of the stolen vouchers remain in the Controller's office and the originals are recorded in full in the office books, which are safe. The Controller has signified no intention of resigning.

Georgia Affairs.

WASHINGTON, Sept. 12.—Georgia journals are commenting freely on the fact that Gov. Bullock has been absent from the State over two months. As there is no Lieut.-Governor, the duties of his office in his absence devolve upon the president of the Senate, and next upon the Speaker of the House. The last heard of the Governor, on the 9th inst., he was at San Francisco.

The Maine Election.

AUGUSTA, Sept. 12.—Indications derived from a careful footing up of the returns received to-day, at noon, are that Gov. Perham's majority will be nearly 11,000. His official majority last year was 8,238.

WASHINGTON CITY.

Naval Orders.

WASHINGTON, Sept. 12.—Capt. Baldwin, detached from Mare Island Navy Yard, is ordered to command the *Colorado* in the Asiatic fleet.

Work in the Printing Bureau.

WASHINGTON, Sept. 12.—The printing of $200,000,000 new bonds has been completed and the bonds delivered, excepting a small portion which await the signature of the Register of the Treasury.

The Printing Bureau has just finished printing a supply of beer and whisky stamps from the old plates. It is supposed that the new stamps for beer, whisky and tobacco will be ready for distribution by the 1st of November, a supply of paper having been shipped by the company which prints them.

BY ATLANTIC CABLE.

English Affairs.

LONDON, Sept. 11.—A meeting in support of the Newcastle strikers is announced to be held in Trafalgar Square on the 25th inst.

The journals of to-day discuss the success of Chinese labor in America in its relation to recent strikes in England.

Newspapers also comment savagely upon the many disasters which have recently befallen British ships of war.

The victory of the Ward crew, in the Saratoga regatta, is also general topic of conversation, and some journals express the opinion that the race was won by the Wards because of the stake boat, an arrangement which has been discarded in England.

Colonel Rowland, an accredited American agent to assist immigration, has arrived here, and goes first to Scandinavia and Germany.

The American ship *Loyella*, from Hamburg, has arrived at Cardiff, with four of her crew dead from cholera. The vessel is quarantined.

It is reported that the entire shipbuilding port of Hull is transferred to a company whose leading officers are Spencer Robinson and naval contractor Reid.

The French and Swiss governments will be represented at the Mont Cenis opening.

The following are the principal conditions of the treaty made between Russia and Prussia at Versailles early this year: Should Austria be involved in war, by intervention or otherwise, Russia will act with the Germans, furnishing a specified number of troops and ships. The contracting powers were to make peace only on the following terms: Austria was to renounce in favor of Germany all Bohemia, Moravia, Silesia and the Duchy of Salzburg. Austria was to renounce in favor of Russia the Provinces of Dalmatia and Galicia. When these changes become accomplished facts, Russia was to cede to Germany five towns and harbors on the Baltic Sea and part of Courland. Prussia was to regard the Treaty of Paris as null and pledge herself to an armed participation in conquests in the East, with a force equal to Russia, and to a subsequent partition of the conquered territory. Prussia was fooled, as was France, in 1866.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Sept. 12.—The weather is warm and foggy.

The steamship *Constantine*, from Portland, has arrived.

Geo. B. Eastman, a Sergeant of Co. K, 12th U. S. Infantry, was examined in the Police court to-day, on the charge of assault to murder Corporal Harvey Kitt of Battery L, 2d U. S. Artillery, stationed at Black Point, at whom he fired a pistol, in a saloon on Kearney street. He will be sent up for trial at the County Court. His bail is fixed at $1,500.

The Board of Supervisors are now engaged in the recount of the Second Ward, Supervisor Story in the chair. A large number of people are in attendance. The question arising where one paster covers two names, though evidently intended to cover but one, the chair ruled that both names being covered, neither could be counted. An appeal was taken from the ruling and counsel will be taken from the City Attorney.

SAN FRANCISCO, Sept. 12.—Parson Bell, editor and proprietor of *The Elevator*, organ of the colored population, was arrested for advertising a lottery, and gave bonds for his appearance for trial.

The new treaty between Hawaii and Japan has been negotiated by U. S. Minister DeLong and exchanged.

Minister DeLong recently compelled the British Charge d'Affairs at Yokohama, to apologize for insulting remarks about himself and Americans, and compelled the publisher of an English paper, the Japan *Mail*, to publish an abject apology for inserting a disgraceful document purporting to emanate from the American Consulate.

Commissioners are negotiating a treaty of commerce between China and Japan.

The recount of the vote of the city by a full Board of Supervisors is proceeding slowly. In the First Ward, Roesner gained one vote, Baldwin lost two, Rosenfeld gained six, Higgins remained as returned, and there are seven ballots on which Harney's large pasters covered up Roesner's name, as well as that of the Democratic candidate for County Clerk.

These seven Roesner claims, which, if allowed, would give him an increase of eight by recount. It will take from eight to ten days to complete the count, they having only reached the Second Ward, which they will finish to-night.

All parties are demanding a recount, and those opposed have counsel present and contest every point as it is raised.

The steamer *City of Melbourne* will not sail for Australia until to-morrow noon, and the *Moses Taylor*, of Webb's line, not until Thursday noon.

Alfred Moulin got seven indictments for libel long pending against him, dismissed for want of prosecution.

SAN FRANCISCO, Sept. 12.—Arrived, ship *Cholula*, 145 days from London, merchandise; ship *Cornbrook*, 143 days from Liverpool, merchandise.

The count of the Second ward resulted in the loss of one vote to Roesner; gain one by Baldwin. McGlynn lost one. No other changes. Now counting Third ward.

SAN FRANCISCO, Sept. 12.—McGlynn gains one; Haines, six; Stevens, 14 by the recount in the First Ward.

Barnett, City Attorney, decides that Booth cannot count a vote ... on the face of the ballot. This gives Roesner six more on account of his majority, Harney's pasters being so large that they covered both his opponent's name and Mr. Baldwin's at the same time.

DOWNIEVILLE, Sept. 12.—Sierra county gave Haight 637; Booth, 1,179.

MARYSVILLE, Sept. 12.—Yuba county gave Haight 1,237; Booth, 1,350.

LOS ANGELES, Sept. 12.—Special dispatches received from ... Flores this morning give the following about the Indian Council: Col. Whiting and Gen. ... were present at the grand council of Indians of Pala and the tribes around there. The council was held at the old Pala Mission by order of Whiting. He laid before them the proposition to which Chief Olegario and his adherents would not agree. Whiting then proposed to the Chief and his followers to consider the matter until Sunday, at 10 o'clock. The Indians were reluctant, and on assembling at that hour another order was issued to meet the Superintendent at ... o'clock that afternoon, and obeyed. The Indians at the ... informed Whiting that Government named Manuel Gango as Chief of the Cohuila tribe, which he accepted with the understanding that he was to have no authority over the Mission Indians. The Cohuilas appear perfectly satisfied with the appointment. Manuel Gango assured Whiting he had never joined Olegario with hostile intentions, but was present when Olegario issued the order for Manuelito's arrest. Monday the Superintendent proposed to Olegario that if he would bury the past and support Manuelito as chief he would appoint him second in command, and gave him fifteen minutes to consider. Olegario consulted his followers, they refused the offer. Whiting then asked Manuelito to resign, which he did. Jose Antonio was then appointed chief of all the Mission Indians in San Diego county. Some of Olegario's followers are dissatisfied. One was heard to say he had rather fight, but generally, the best of feeling prevailed. At the conclusion of the Council, Whiting distributed Government blankets to the Indians and left some with the chiefs for Indians absent. The citizens speak highly of the coolness and judgment of the Superintendent in reconciling the Indians without resort to force. The Council broke up with good feeling on the part of the Indians.

Complaints are made of selling lottery tickets; but it still goes on in spite of arrests. Tickets in the Grass Valley lottery, which is to be drawn in a few days, are being sold all over town by peddlers.

A prisoner named Trim was stabbed ten times by a fellow prisoner named Walcom, in the State Prison yesterday, the knife penetrating the lungs. Recovery doubtful. The dispute arose about wheeling brick. Trim was in for two years for arson. He has a family in San Francisco.

The Daily Oregonian.

WEDNESDAY MORNING, SEPT. 13, 1871.

A Suggestive Parallel.

The most profligate and corrupt Legislature that ever assembled in California was that of two years ago. It was almost unanimously Democratic in both branches. Partisan measures of the most extreme character were rushed through it without regard to moderation or decency. New offices were created in order to supply places for men who had worked for "the party." Jobs of all sorts were put through for the benefit of friends of the dominant party, who claimed that their "services" were entitled to this recognition. Boards and Commissions almost without end were established and filled with "workers for the party," and large salaries were paid for imaginary services. There was legislation on tide lands and legislation on swamp lands for the benefit of rings and officials; there was legislation for mendicant newspapers belonging to "the party," and legislation on every conceivable thing that could be made to furnish spoils for the hungering Democracy. In short, the session was held expressly to aid "the party," and to help its servitors to larger dividends of spoils.

By these expedients it was believed that the Democratic party in California would be rendered strong and invincible. Yet these very measures have contributed most powerfully to its overthrow. The system of swindling adopted, though it was legalized by the law-making power and enforced by the constituted authorities, was not received by the people with satisfaction, and on the first opportunity they upturned the whole partisan scheme and sent its authors and defenders into political retirement.

We have made this recital for a purpose. It has a near relation to affairs in our own State. Our last Legislature was the counterpart of that of California. All the hints for partisan legislation at Salem last year were drawn from our neighboring State. All the tricks were imitated from California. All the legalized swindling of the session was suggested by the legislation of California Democracy. California legislation was the prototype of it all. Gov. Grover on taking office, at once became a servile imitator and obsequious follower of Gov. Haight. His Legislature took pattern after Gov. Haight's Legislature. The idea was adopted that the legislation of the session must be so framed as to reward the friends of "the party," and to enure to "the party's" advantage. This was the central principle. It was strictly adhered to throughout. Hence the Democratic legislation of California was repeated here,—the only difference being the changes that were made necessary by the difference of circumstances and situation. New offices were created and salaries increased in defiance of the Constitution; a bill was passed at the instigation of a ring to make it easy for speculators to seize the swamp lands of the State; the irreducible school fund of the State was violated and a gift of $200,000 was made outright to a company composed chiefly of leading Democratic politicians headed by Senator Kelly; a bill was passed to enable the publishers of Democratic newspapers to swindle litigants by unconscionable charges for compulsory advertising. These and similar measures it was hoped would powerfully aid to keep the Democratic party in power. How it eventuated in California we have already seen; how it will result in Oregon will be recorded next year. It is inevitable that the corrupt measures of this party, which it takes to naturally wherever it gains power, should contribute to its overthrow. The parallel between Democratic doings in California and in Oregon is close, exact and complete. Events are rapidly tending to complete a second parallel, which will be fully finished when Oregon next year shall have repudiated this party, as California has now done.

A Mobocratic Fool.

The fools are not at all dead yet. The editor of the *Irish People*, a paper published in New York city, distinctively in the interests of mobocracy, is a living evidence of the fact. He cannot get over the remembrance that he and his ruffian crew of supporters were obliged to obey the law and permit the Orangemen to parade on the 12th of last July. In an issue of his sheet on the 19th of last month, in reply to the strictures made in Henry Ward Beecher's paper upon the conduct of the mob and the rights of Orangemen in this country, this editorial maniac says:

Henry Ward Beecher, a minister of some kind of new-fangled gospel of the Woodhull and Claflin type, tells the Orangemen that they are bound to parade in this city next year. In plainer terms, "that minister of peace invites to another massacre."

Very well, Mr. Beecher, let it come, and we tell you, and the Orangemen to boot, and Hoffman and all his supporters, that if Orangemen ever attempt another parade in this city, it will be their last.

Farther on in the same article he says:

Should the Orangemen ever parade in New York, let the citizens who feel aggrieved at the violation of our laws and institutions, take whatever measures they choose into their hands to uphold the laws, if they care anything about their country. As for the Irish element, whose lives are aimed at by Orangemen, let them congregate on the tops of houses and at windows, provided with a few dozen hand-grenades, say a couple of hundred at different points, and all the State militia that ever gathered together will hasten homewards as fast as their feet can carry them. Remember, that twenty thousand militia marching through New York streets are not equal to one hundred men situated as described. This to be had recourse to only in the event of the Orangemen being surrounded by police and military so deeply that they cannot be reached, as on last 12th of July. After that we shall have done with Orangemen in this city.

The author of the above sentiments, who in his insane hatred, is pandering to the worst passions of an ignorant and easily influenced class of minds, should be informed that if he and they court utter annihilation at the hands of outraged American manhood, they should by all means attempt to carry out the programme contained in the above advice.

The Sacramento *Union* of the 8th claims that the California Senate is Republican by two to four majority, and the House Republican by fourteen to twenty majority. The San Francisco *Chronicle* of the same date estimates the Republican majority on joint ballot at twenty, which, considering the large number of Democratic Senators holding over, is an astonishing triumph.

The Administration, in the *Herald's* opinion, is a failure. That paper seems to derive this opinion from the result of the elections, which it probably considers a crushing rebuke to the Administration. But this story of "failure" is nothing new. It was once asserted that the war was a "failure." The present Administration has failed the same way.

The Great Carpet Trick.

Under this caption the New York *Times* prints an estimate of what the carpets for the Court House in that city could have been furnished for. The estimate was prepared by one of the first carpet houses of the city. The amount is $13,357 15, which it is asserted would have supplied all the carpets which could be used in the building. The amount charged the city for the same was $350,178,-46, showing that the snug sum of $336,821,-31 was stolen in this little transaction. The *Times* asks, What became of the carpets represented by this $336,821 31? It cannot tell, but learns that Boss Tweed's son has just opened the Metropolitan Hotel and finds in one of the ring papers the following description of the house:

The new furniture is gorgeous. Every room in the hotel has been completely renovated and redecorated, and entirely refurnished. The ladies' parlor is a perfect paradise. *Royal Wiltons and Axminsters cover the floors*, and gold and walnut furniture abounds. The bridal chambers on the third floor are marvels of elegance. *Axminster carpets of the softest tint cover the floors*, and in the bedroom is an elaborately carved walnut bedstead of the Turkish pattern with furniture to match. The bridal suite consists of parlor, two bedrooms and two bath-rooms, all connecting. The furniture in each corresponds. The famous corner suites, which in Warren Leland's time were so popular, have been fitted up with an extravagance that seems almost incredible. The one on the second floor is furnished in mauve moquette, with *Wilton carpet and lambrequins to match*. That on the third floor is in blue satin and lace, *with the finest Axminster on the floors*. The furniture in both these suites is a miracle of carving and gilding, and seems better fitted for a fairy palace than for a public hotel. Among those who congratulated the young proprietor were *Hon. O. W. Brennen*, Senator Morton, *Hon. Thomas C. Fields*, Judge Shandley, Alderman Mitchell, Wm. J. Florence, Howard Paul, Col. John R. Fellows, Hon. Michael J. Shandley, Hon. Eugene Durnin, Dr. Nealis, Hon. George Wilcox of Troy, Capt. Walsh, Hon. James R. Robinson, Justice Dowling, Hon. R. D. Sharpe, Hon. Henry Smith and others. A thousand of the young proprietor's guests assembled in the room and around the well appointed tables. Champagne flowed like a mountain stream down a mill-race.

The strength of the Presbyterian Church in the United States, as reported at the General Assembly of that body at Chicago, last May, is 455,378. This, however, does not include the whole, as many congregations were not reported. Contributions for the purposes of the Church for the year ending in May are reported to have amounted to $9,097,706—an increase of nearly $600,000 over the previous year. Some idea of the amount of money contributed for religious purposes in this country may be derived from the statement that a single denomination, and that not the most numerous one, has raised so large a sum.

The increased Republican majority in Maine is another "sign." We hunger for another Democratic editorial on "centralization."

CURRENT NOTES.

The Savannah (Ga.) *Republican* insists that the cotton crop will be nearly a million bales short of that of last year, but it thinks the Southern planter holds the high trumps in the game the present year, and will only have to play them judiciously to protect himself against loss.

The peculiar paper which is used for the United States legal tender notes, fractional currency, etc., is made in Glenn Mills, near Philadelphia. The Messrs. Wilcox, proprietors of the mills, are paper makers by inheritance, being descendants of Thomas Wilcox, the first paper maker in the country.

Chinese Women.

The women of China are divided into two classes—the bound-footed, who are the ladies, and the large footed, who are the common class. The latter carry the burdens, do all the drudgery and out door work while their husbands do nothing.

When a little girl is born, the parents think the gods are angry with them, and they have to hold a consultation whether she shall be allowed to live or not. If she is, when she arrives at the age of four years they hold another consultation whether she shall be a bound footed or a large footed woman. If she is chosen to be a bound footed woman, she is not permitted to do any thing; but, if otherwise, she has to be the family's slave.

I have seen a woman with four children strapped upon her back and rowing a boat, while her husband lay in the cabin smoking his pipe. Girls have no choice of their husbands; the young girl is sold by her parents at the highest price they can obtain for her. She never sees her husband, nor he her, until after they are married. If he chooses, he can be divorced from her for talking too much; if he becomes poor, or gets tired of her he sells her again. In the coldest weather the large footed women are not allowed to wear stockings, and cannot dress in any other colors than black and blue.

The manner in which they make their feet small is by binding the four toes under the foot, which they keep bound up for about eleven years, when the foot becomes dead. I have walked through the streets when the women would brush against my dress so as to see my feet, so they could tell to what class I belonged. I would say to them, "I will show you my feet, but do not pull my clothes, as it is rude." When I would expose my feet to them they would exclaim: "Why, have you no real ladies in America?" And the only way that I could make them believe that we had, was by telling them that the women read books like the men, which utterly astounded them, as the real Chinese lady is brought up in the utmost ignorance, and they only marry in the rich families because they know and do so little, and need so much waiting upon, that it takes a rich husband to support them.

If you ask a Chinese woman how many children she has, she will give you only the number of the boys. She has to be asked the second time how many girls she has, as they are thought so little of, that, in many cases, they are killed as soon as born. A large footed woman told me once that her first child was a little girl, and she described to me how she loved the little one. "My husband went out," she said, "and brought in a tub of water. I begged him to spare its life, but he took the little one and put its head in the water and held it there until it was dead." Her second babe was a daughter, and it was served the same as the first; the third child was a boy; he lived until he was about four years old, then the gods got angry and killed him; "then my husband died; and now, if I eat any thing nice and wear good clothes, my relatives become angry and treat me harshly." Even in Christian churches, in China, the women are not allowed in the same room with the men, but are partitioned off in a lattice work room.

Child Murderess.

AN ENGLISH GIRL WITH A MANIA FOR KILLING CHILDREN, CATS, DOGS AND PARROTS.

[From the London Daily News, August 15.]

Agnes Norman was yesterday sentenced to ten years penal servitude for having attempted to strangle a little boy named Parfit. And so ends one of the strangest stories of crime which have ever found their way into our criminal records. It will be remembered that this girl was accused of having murdered children in various houses in which she had been maid servant; and it was also stated that her mania for killing extended itself to parrots, dogs and other animals. What is definitely known is that certain young children whom she had under her care died suddenly and without apparent cause, and that the mothers suspected her of having smothered them while in bed. The jury, however,

ACQUITTED HER ON ALL CHARGES

except one, not deeming the evidence sufficient in the others; and she is now reaping the penalty of having attempted to murder a child who was fortunately rescued. It is obvious, however, that this girl presents one of those curious phenomena with which our jurisprudence finds it difficult to deal. None of the ordinary motives of cupidity or revenge would seem to have influenced her; and one is naturally led to ask how a mania of this kind is to be distinguished from that insanity which relieves its victims of responsibility. In other directions, it is true, Agnes Norman would seem to be sane enough. There is something, however, very horrible in the notion of an apparently quiet and gentle girl going about a house in the character of an assistant domestic, with her thoughts perpetually turning on the possibility of killing something. Will ten years penal servitude cause the leopard to change its spots?

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past *twelve years*; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Unk Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ENTIRELY DISAPPEARED and I use my limbs and am farther better than I have been for years.

TO HOUSE BUILDERS & PAINTERS

"AVERILL CHEMICAL PAINTS."

THESE PAINTS ARE SO WELL KNOWN throughout the Atlantic States and their reputation so abundantly established for

Beauty, Permanence and Economy

That we can confidently recommend and guarantee an entire satisfaction in their use.

THEIR COST is less than pure leads, and covers one-fifth more surface, making them the most economical Paints in the market.

THEIR DURABILITY is unquestioned. They dry hard with a smooth and glossy surface and will not chalk, crack or peel off.

THEIR ADAPTABILITY.—They are already mixed and ready for use and require no oil, turpentine or dryers. Are sold of any desired shade, by the gallon only.

Testimonials:

Gen. James S. Negley, M. C., Pittsburg, Pa., writes Nov. 10, '70: I have no hesitation in recommending the "Averill Chemical Paints" to those who regard economy and durability. It weathers our smoky atmosphere better than any Paints I have tested. The colors are rich and variable. Altogether I find them the CHEAPEST AND BEST."

"JACKSONVILLE, FLORIDA CUSTOM HOUSE.—It looks as fresh and glossy as when first applied. I do not believe any LEAD AND OIL CAN EQUAL IT.
"WM. P. DOCKRAY."

I have carefully compared the cost and merits of the Averill Paints with White Lead and Oil and find 90 cents per gallon in favor of the former.

H. H. PEARSON,

Late of the Russ House.

HAVING BOUGHT THE INTEREST OF MESSRS. Tubbs & Patten, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. Its previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the travelling public, warrants him in expecting a large amount of country, Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodation. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st.

WALLAMET UNIVERSITY — MEDICAL DEPARTMENT.—We have received the annual announcement of this department of the Wallamet University at Salem, from which we learn that the Sixth Regular Course of Lectures will commence with a public lecture on the evening of the 4th of November, at 7 o'clock. Six lectures will be given daily, except Wednesday afternoon and Saturday. Session to continue four months. Medical Clinics every Wednesday afternoon, Surgical Clinics every Saturday forenoon. Students will be examined daily upon the lectures of the previous day. The Summer Course will begin after one month's interval from the Regular Course and continue four months. The following are the names of the Faculty: E. R. Fiske, A. M., M. D., Professor of Pathology, Theory and Practice of Medicine, and Lecturer on Clinical Medicine; H. Carpenter, M. D., Professor of Civil and Military Surgery, and Lecturer on Clinical Surgery; D. Payton, M. D., Professor of Obstetrics and Diseases of Women and Children; S. Jessup, M. D., Professor of Descriptive and Surgical Anatomy; C. H. Hall, M. D., Professor of Physiology and Hygiene; L. L. Rogers, A. B., A. M., Professor of Chemistry and Toxicology; Syl. C. Simpson, A. B., A. M., Professor of Medical Jurisprudence.

FROM ST. HELENS.—Our correspondent at St. Helens writes Sept. 11th, as follows:

The *Geo. S. Wright*, on her downward trip, ran aground on the crossing opposite Columbia City, on yesterday. Efforts were made to get her off, but at the latest accounts she was still fast. This morning the smoke is so dense that we could not see her. It is supposed that on account of the railroad prospects in Columbia City that real estate in the river is on the rise to such an extent as to seriously retard vessels in their approach to your city, and the *Wright*, seeing the "good time coming," concluded to squat on that particular spot and go into business, perhaps keeping mess house for the Columbia City Mining, Manufacturing, Steamboat and Ferry Company, as wages there are good and appetites keen.

I don't think the smoke here has ever been so annoying. The mountains in every direction are on fire and much property is being destroyed. Word reached here this morning that the Cowlitz man and Ostrander creek bridges framed here for the N. P. R. R. were both burned, having caught from the burning forest.

THE PARADE SETTLED FOR.—The Committee of Arrangements who had the late Firemen's Parade in charge, held a final meeting on Monday evening. All accounts connected with the celebration were settled and the sum of $209 35 was found remaining on hand. Mr. S. G. Skid...... was authorized to take charge of it and hand it over to the Board of Delegates to be used in repairs to the Firemen's burial ground in Lone Fir Cemetery. On motion of Mr. W. O. Bruen, a vote of thanks was adopted to the Council and individual subscribers to the expense fund; to the Insurance Co.'s who contributed; to the O. S. N. Co. for a donation and the free use of their wharf; to Mr. George Kallish for contribution of ice; to the press of the city for gratuitous advertising; and to the President, C. Ball and Secretary W. H. Watsell, for services rendered. The Committee then dissolved.

IN A NEW ROLE.—We see, by a bill advertising "Entertainment" that our friend T. B. Merry, whilom local reporter for the *Bulletin*, has gone into the amateur theatrical business at Eugene City. As per "bills of the day" Mr. Merry personated bluff old Admiral Kingston, R. N., in the elegant comedy of "The Naval Engagement," and Charles Fenton in "Toodles," supported in both cases, as the theatrical reporters say, by a talented corps of amateur artistes, etc. As to the large and fashionable audience present on the occasion, the point of the entertainment, applause, encores, and all that, the bill gives no information; but we doubt not our friend Merry won a right royally wore laurels enough for the adornment of any reasonable amateur brow.

A WINTER DRIVE.—When all the plank streets of East Portland shall be completed, it will furnish a continuous drive for winter months such as cannot be found on this side of the river. A carriage may be driven from the ferry landing at the ...... street, up ...... to N, thence ...... along Fifth and Fourth to Holladay Addition ...... the ...... for over a mile, making a single drive of ...... than three miles without touching ...... ground. These streets will all be completed before the usual time of the ...... Engine ...... of the ...... East Portland will have ...... and fine bridges on J and L streets spanning the bottom land and the river to Fourth street.

FIRES.—A report was afloat here yesterday morning that Milwaukie was in great danger from a fire raging in the woods adjoining, but passengers by the evening train report that the fire had subsided. The woods are burned through. There is still fire over the mountains west of the city. The Mountain Park is now out of danger. Great damage is reported done at various points down the river. The Columbia river toward the Cascade is covered so densely with smoke as to render navigation difficult.

A TOUGH CASE.—A few nights since a number of Chinamen were arrested at the Josh House for raising a riot, beating a Chineman, etc. They were arraigned in the Police Court and their trial has worn on ...... jurise, without producing a verdict. The last jury were out all ...... and till some hour ...... day ...... when Judge Denny discharged them. We suppose another will be summoned and a verdict of some sort will be reached if it takes all summer.

SHIPPING.—The bark *Live Yankee* sailed from San Francisco for Portland last Saturday. The British bark *Alice Graham*, Morgan, master, loaded with railroad material from New South Wales for this port, is now out 183 days, and is therefore, nearly due. The schooner *Clara Light*, with cargo of Nanaimo coal, for Hutchings, Kohl & Co., is nearly due at this port.

OPPOSITION WITHDRAWN.—The news current yesterday that the steamship *Constantine* had been withdrawn from the San Francisco and Portland route, is true. Capt. Flanders, the agent at this city, showed us a telegram, last evening, from the Company announcing the withdrawal.

FALL OF TWENTY FEET.—Yesterday morning a carpenter at work on a building in the northern part of the city fell from a ladder, twenty feet to the ground, and was so badly hurt as to be picked up insensible. His injuries are, however, not thought to be dangerous.

WOOD BURNED.—The *Bulletin* learns that on Sunday last the fire in the Woods to the southwest of the city destroyed two hundred cords of wood, the property of Nathan Bird, and about four hundred cords belonging to Mr. Steelman.

SERENADE.—The East Portland Band, after the jubilation in front of the American Exchange was over, last evening, gave this office the compliment of a serenade, which we acknowledge with thanks.

PROVIDENT PEOPLE.—We hear that a number of people along Fourth street have filed notices against the Railroad Company—that they intend to go for damages—in case they shall prove to be damaged.

FARM TO BE SOLD.—Mr. A. B. Richardson will sell at auction at 10 A. M. to-day an eighty acre farm, situated about five miles from the city. Also a couple of lots in East Portland.

THE HARRISBURG R. R. BRIDGE.—We learn that the first locomotive on the O. & C. Railroad will pass over the Harrisburg bridge, on or about the 20th inst.

WOMAN SUFFRAGE AT SALEM.—Miss Susan B. Anthony will lecture at Reed's Opera House, Salem, to-morrow evening, on the "Power of the Ballot."

PERSONAL.

Prof. Richard Yarndley, formerly director of the Philharmonic Society, Albany, N. Y., and more recently of San Francisco, will arrive on the *L. Stephens* to locate in Portland. He is one of the finest organists in the United States and ranks among the first musicians in San Francisco.

Mrs. Sarah E. Buxton, of Portland passed Ogden, per Central Pacific Railroad, coming east, on Sunday.

Mr. A. Joint and Dr. A. M. Loryea, of Portland, passed Ogden, west, yesterday.

It is supposed that on account of the railroad prospects in Columbia City that real estate in the river is on the rise to such an extent as to seriously retard vessels in their approach to your city, and the *Wright*, seeing the "good time coming," concluded to squat on that particular spot and go into business—perhaps keeping mess house for the Columbia City Milling, Manufacturing, Steamboat and Railroad Company, as wages there are good and appetites keen.

I don't think the smoke here has ever been so annoying. The mountains in every direction are on fire and much property is being destroyed. Word reached here this morning that the Cowesman and Ostrander creek bridges framed here for the N. P. R. R. were both burned, having caught from the burning forest.

THE PARADE SETTLED FOR.—The Committee of Arrangements who had the late Firemen's Parade in charge, held a final meeting on Monday evening. All accounts connected with the celebration were settled and the sum of $209 25 was found remaining on hand. Mr. S. G. Skidmore was authorized to take charge of it and hand it over to the Board of Delegates to be used in repairs to the Firemen's burial ground in Lone Fir Cemetery. On motion of Mr. W. O. Bruen, a vote of thanks was adopted—to the Council and individual subscribers to the expense fund; to the Insurance Co.'s who contributed; to the O. S. N. Co. for a donation and the free use of their wharf; to Mr. George Kallich for contribution of ice; to the press of the city for gratuitous advertising; and to the President, C. Ball and Secretary W. H. Wetsell, for services rendered. The Committee then dissolved.

IN A NEW ROLE.—We see by a bill headed "Entertainment" that our friend T. B. Merry, whilom local reporter for the *Bulletin*, has gone into the amateur theatrical business, at Eugene City. As per "bills of the day" Mr. Merry personated bluff old Admiral Kingston, R. N., in the elegant comedy of "The Naval Engagement," and Charles Fenton in "Toodles," supported in both cases, as the theatrical reporters say, by a talented corps of amateur artistes, etc. As to the large and fashionable audience present on the occasion, the eclat of the entrees, applause and encores, and all that, the bill gives no information; but we doubt not our friend Merry won and right royally wore laurels enough for the adornment of any reasonable amateur brow.

A WINTER DRIVE.—When all the plank streets of East Portland shall be completed, they will furnish a continuous drive for winter months, such as cannot be found on this side of the river. A carriage may be driven from the ferry landing at the foot of L street, up water to N, thence to Fifth, along Fifth and Fourth to Holladay Avenue, and on the avenue for over a mile, making a single drive of more than three miles without retracing any ground. These streets will all be completed before the usual time of the setting in of the rains. Besides these streets, East Portland will have long and fine bridges on J and L streets spanning the bottom land from the river to Fourth street.

FIRES.—A report was afloat here yesterday morning that Milwaukie was in great danger from a fire raging in the woods adjoining, but passengers by the evening train report that the fire had subsided. The woods are burned through. There is still fire over the mountains west of the city. The Mountain Park is now out of danger. Great damage is reported done at various points down the river. The Columbia river toward the Cascade is covered so densely with smoke as to render navigation difficult.

A TOUGH CASE.—A few nights since a number of Chinamen were arrested at the Josh House, for raising a riot, beating a Chinaman, etc. They were arraigned in the Police Court and their trial has worn out two juries, without producing a verdict. The last jury were out all Monday night and till some hour yesterday afternoon, when Judge Denny discharged them. We suppose another will be summoned and a verdict of some sort will be reached if it takes all summer.

SHIPPING.—The bark *Live Yankee* sailed from San Francisco for Portland last Saturday. The British bark *Alice Graham*, Morgan, master, loaded with railroad material from Newport, Wales for this port, is now out 133 days, and is, therefore, nearly due. The schooner *Clara Light* with cargo of Nanaimo coal, for Hutchinson, Kohl & Co., is nearly due at this port.

OPPOSITION WITHDRAWN.—The news current yesterday that the steamship *Constantine* had been withdrawn from the San Francisco and Portland route, is true. Capt. Flanders, the agent at this city, showed us a telegram, last evening, from the Company announcing the withdrawal.

FALL OF TWENTY FEET.—Yesterday morning a carpenter at work on a building in the northern part of the city fell from a ladder, twenty feet to the ground, and was so badly hurt as to be picked up insensible. His injuries are, however, not thought to be dangerous.

WOOD BURNED.—The *Bulletin* learns that on Sunday last the fires in the Woods to the southwest of the city destroyed two hundred cords of wood, the property of Nathan Bird, and also four hundred cords belonging to Mr. Steelman.

SERENADE.—The East Portland Band, after the jubilation in front of the American Exchange, was over, last evening, gave this office the compliment of a serenade, which we acknowledge with thanks.

PROVIDENT PEOPLE.—We hear that a number of people along Fourth street have filed notices against the Railroad Company—that they intend to go for damages—in case they shall prove to be damaged.

FARM TO BE SOLD.—Mr. A. B. Richardson will sell at auction at 10 A. M. to-day an eighty-acre farm, situated about five miles from the city. Also a couple of lots in East Portland.

THE HARRISBURG R. R. BRIDGE.—We learn that the first locomotive on the O. & C. Railroad will pass over the Harrisburg bridge, on or about the 20th inst.

WOMAN SUFFRAGE AT SALEM.—Miss Susan B. Anthony will lecture at Reed's Opera House, Salem, to-morrow evening, on the "Power of the Ballot."

PERSONAL.

Prof. Richard Yarndley, formerly director of the Philharmonic Society, Albany, N. Y., and more recently of San Francisco, will arrive per *J. L. Stephens* to locate in Portland. He is one of the finest organists in the United States, and ranks among the first musicians in San Francisco.

Mrs. Sarah E. Buxton of Portland passed Ogden per Central Pacific Railroad, coming west, on Sunday.

Mr. A. Joint and Dr. A. M. Loryea, of Portland, passed Ogden, west, yesterday.

REPUBLICAN CELEBRATION.

100 GUNS FOR CALIFORNIA—REPUBLICAN MASS MEETING—SPEECHES, BONFIRES, FIRE WORKS, ETC.

The Republicans of this city celebrated the signal victory just gained by their brethren in California, by firing one hundred guns, last evening, followed by speeches, music, bonfires and fireworks in front of the American Exchange. The guns were fired on Flanders' wharf, commencing at 5 o'clock P. M., and continuing till 7 o'clock. At 7 o'clock the East Portland Band appeared upon the balcony of the American Exchange Hotel and beginning to play, there was soon an immense crowd in the street, in front, though there had been no previous announcement of the demonstration. Fireworks were set off from the street below, and a large bonfire was kindled in Washington street nearly opposite this office.

At eight o'clock ex-Senator Williams, in response to a general call, appeared upon the balcony and addressed the crowd for an hour in a forcible and telling speech, richly fraught with argument, political reminiscences and happy hits at the forlorn condition of the Democracy. He predicted that Oregon would, next year, follow the example of California, and would roll up a Republican victory, such as should be rejoiced over by all good friends of the Government from Maine to California. Judge Williams' remarks were peculiarly happy, and upon retiring he was cheered enthusiastically.

Mr. J. F. Caples being upon the balcony, was called for. He responded in a magnetic speech of half an hour, stirring the immense crowd into enthusiasm. Mr. Caples scored the bed-rockers and the new departurists, not only with the weapons which history puts in every man's hands, but with scathing sarcasm and sharp edged wit—weapons which he uses with peculiar and happy force.

Senator Corbett was next called, and he responded with a brief speech freighted with words of good cheer and encouragement. He was cheered with much heartiness.

The impromptu meeting broke up at about ten o'clock. Throughout we heard naught but expressions of heart-felt gratification at the splendid victory gained by our brethren of California over the allies of Tammany, and confident predictions of a similar result in Oregon, next year.

BUSINESS NOTICES.

GREAT SALE OF LANDS AT AUCTION.—Messrs. J. G. Hustler and H. S. Aiken advertise an extensive sale of lands at auction, at Astoria, on Tuesday, Oct. 3. The lands to be sold were the property of the late Judge Olney, and embrace a long list of lots in the town of Astoria, and a considerable number of outside parcels, adjoining the town site; also, the "Klaskanine Farm"—a splendid piece of property.

REAL ESTATE SALE.—At auction, on Saturday next, the 16th September, by A. B. Richardson, four quarters block 321, situated upon Yamhill and Thirteenth streets. The locality is most beautiful and very healthy; convenient to the center of the city and the new Parks, and about six minutes walk to the new Postoffice, commanding a view of East Portland and the snowy mountains. For private residence or investment it is most suitable. Grading very light indeed and the block perfectly level. Terms half cash and long time—one and two years. The opportunity to purchase such desirable and valuable property may never occur again.

SOCIETY MEETING.—There will be a special meeting of the "Ladies' Relief Society" on Wednesday, the 13th, at 2½ o'clock P. M., at the usual place. A large attendance is requested, to attend to important business. This Society has for rent a small house, on the corner of 14th and F streets, with two lots and a good well attached, for $15 per month. Any one wishing to rent it, will please apply at the residence of Capt. Ainsworth or Mr. J. B. Congle. 2t

CARD.

The undersigned take this method of correcting an erroneous idea that seems prevalent in this community, notwithstanding our statement to the contrary. It is reported currently in this city, and we understand that some of the newspapers in the interior assert, that our house is a branch of the house of A. L. Bancroft & Co., San Francisco. We wish it *distinctly* understood that we are *not* connected in any manner whatever with A. L. Bancroft & Co., or with any other firm in San Francisco or elsewhere. We are content to stand on our own merits, and feel perfectly confident that we shall be fully able to satisfy our customers and the public.

Influence of Temperature on Health.

In the fall the difference between the temperature of night and day is greater than at any other time of the year. In the early autumn the quicksilver sometimes rises as high during the day as the most fervid summer weather, while at night it often sinks to an almost wintry point. The human body not being made of steel or India rubber, sensibly feels these tremendous changes. To fortify the system against them, a genuine tonic is required; and the public has long since discovered that among this description of medicines Hostetter's Stomach Bitters is infinitely the best. It gently quickens the circulation, regulates the bowels, tones the liver, braces the nerves, and thus puts the whole physique on its defense against the vicissitudes of temperature in our climate. Few, if any cases of epidemic fever are heard of in localities where it is in common use. As it becomes more and more widely known and the demand for it increases, chills and fever and the bilious remittent seem to recede before it, and if ever it should come into universal use, those diseases would cease to be known as the scourges of our low-lying and marshy districts. That homely bit of proverbial philosophy, that "prevention is better than cure," should be especially borne in mind in the autumn months; and indeed in all seasons, together with the fact, that among all the preventives of malarious disease, Hostetter's Stomach Bitters is the most safe and potent.

Be certain, however, to obtain the genuine article, as countless imitations of a pernicious character are abroad. See that the externals are all right, and remember that Hostetter's Stomach Bitters are sold in bottles only.

DR. ABORN,

Whose remarkable success in curing Chronic and Obstinate Diseases that have for years or a lifetime resisted the usual routine of treatment is well known on the Pacific Coast as well as throughout the Union.

Convalescence and Recovery

are rapid under his new and scientific mode of treatment. But very few, if any, men of his age in the profession have been so universally successful as DR. ABORN. Combining with his knowledge, skill and experience in his special branch of the profession all that the inventors of the age or the late discoveries of medical science have brought to the aid of the modern practitioner, DR. ABORN is prepared to treat with almost unfailing success all such cases as may come under his care. He has, within the past few years, introduced into his practice many new and important remedies, with novel and effectual modes of application, with which, during his professional career, he has produced the most successful and satisfactory results.

DR. ABORN,

For twelve years past has devoted himself to office practice for the treatment of obstinate chronic diseases, especially such cases as have resisted all the ordinary modes of practice. He has thus been enabled to treat at least five times as many patients annually as he possibly could, had he treated them at their residences. Thus he claims twelve years' office practice, exclusively devoted to special chronic diseases, as more than equivalent to sixty years' experience in general practice.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to any painful or unpleasant operations. His treatment is mild and safe for the most delicate child. The afflicted are hereby informed that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocations.

Pre-emption, date, No. ——

To the Land Agent of the European and Oregon Land Company:

SIR: You are hereby notified that I have settled upon and improved (description of land) in the county of State of Oregon, containing —— acres, and that I claim a pre-emption right to purchase said lands at the Company's valuation in accordance with the following resolution of the Directors of said Company, adopted on the twenty-sixth day of May, A. D. 1871, to the terms of which I hereby fully assent:

"Resolved, That the parties settling upon and improving any of the lands of the European and Oregon Land Company, before the same are opened for market, shall be entitled to the pre-emption privilege of purchase on the same terms as the Company would sell the land for without improvement, and shall be subject to the same conditions of payment, as all other lands belonging to the Company, when brought into market; provided, such settlers shall file in the Land Office of said Company, written application giving notice of such settlement, and shall accept the privilege upon the condition that when the price of the land shall be fixed, notice thereof shall be sent by the Company's Land Agent, through the Postoffice, or otherwise, as may be convenient, to the residence of the party claiming the pre-emption privilege, and if the land is not purchased by the said party within sixty days from the date of such notice, the Company will be at liberty to sell the land to any other person."

The Arizona Indian War.

The Arizona *Citizen* of Aug. 26th, contains a severe accusation against the Indian Bureau. We quote:

Government has improved and strengthened the army in Arizona. The Indian Bureau at the same time sends out instructions which enforced by officials advised of the facts, paralyize and defeat the labors of an energetic and enthusiastic military. While the latter are marching and searching anxiously to give victorious battle to an acknowledged band of savages *determined on war*, the former are as industriously searching out and caring for the families of that murderous band. It is no excuse to say they are hunting for Cachise, for they pay money to relieve him of all care for his dependent ones, thereby making his capture next to impossible. These are facts, and we reiterate that the country should know them. We have our information from unimpeachable men. Never was there a more exasperating interference with a war admitted to be one of necessity. A General who never before made a failure when he went after hostile Indians, has been so far defeated by orders from another department executed by officers who know the effect if they do deny their intent to produce it. This is the cause of over a month's time of the troops being wasted, and the country should bear the fact in mind. Purposely or not, the Indian Bureau is most effectively aiding the Apache Indian to continue the war.

A WONDERFUL DOG.—The Marshfield (Mo.) *Citizen* gives an instance of a remarkable exhibition of intelligence by a member of the canine population of that town. The dog had been decoyed to Springfield by some teamsters, and was then taken to Mrs. Walton's boarding house and chained. We will let the *Citizen* tell the rest:

"Mr. Abbott, hearing of the whereabouts of his missing dog, sent word immediately to Springfield to release him, which was accordingly done. Frank at once made straight for the depot, and patiently remained there until train time. This fact was particularly noticed by the railroad employees of that place. ... "After waiting there for several hours, two trains came, thundering along, one bound east, the other west. Frank's tail now gave evidence of unbounded joy, and without going through with the usual ceremony at the ticket office jumped aboard of the eastern bound train, determined to 'dead head' it if possible. Upon arriving at Marshfield, without making any inquiries as to what place it was, he bounded off the train, and made his way home, seemingly the happiest dog alive. What makes it remarkable is the fact that he came alone, and was the only passenger that got off the train at this point, and that he should get on the right train at Springfield, even when the western bound train started a few minutes before the eastern. We hear his master intends to appoint him as traveling agent. He is now being trained for that purpose."

FINANCE AND COMMERCE.

TUESDAY EVENING, Sept. 12th, 1871.

Gold in New York, 113¼.

Currency, buying, 87½c; selling, 88½.

The ... from San Francisco for this port on Thursday morning of this week.

We were shown a private telegram from San Francisco to one of our leading firms which reads: "Opposition off, freights up." So by this it would seem the *Constantine* has made her last trip as an opposition steamer.

Bark *Skiddaw*, ... to 700 tons Wheat, and upon the *Brewster's* arrival will drop down the river and take in balance (300 tons) of cargo.

The bark *Dovenby* takes ... place on the berth as soon as the *Skiddaw* drops down the river.

By our San Francisco exchanges we note the arrival in that market, per *Amanda Ager*, 1,200 bbls Salmon, and per *Hattie*, 2,000 bbls Salmon from Ounalaska. In speaking of this Salmon the paper says: "This Alaska Salmon is of a very superior quality, being equal to the very best English article."

In Hardware there is a very general feeling that further advance will be made soon. The strikes in England has had the effect to stop several manufactures, which taken with the advance in Coal in England, owing to the strike of the laborers ... by the miners, and the advance in Iron give good foundation for the opinion that advances in England and the Eastern States will be sustained, thus necessitating advancing prices here. The telegraph, Sept. 9th, informed us that the Nail and Spike Manufacturers convention in Philadelphia advanced prices 25 per cent. on all sales under 200 kegs, from 200 to 1,000 kegs 15 per cent. and for all amounts over 1,000 kegs 10 per cent. This advance but heralds further advances in the Hardware line which will inevitably be made soon. Iron in San Francisco had here has advanced fully ½ ct. ₿ lb in sympathy with the advance in the English market of £1 for the ton on merchant bars; and also to the advance in the Eastern States previously noted by us. These advances have been fully sustained as no concessions are made to any. The loss of several English vessels with large cargoes of Iron, Steel, etc., would ... only give more tone to the market on this coast even if no advance was noted in the East and European markets.

Mail advices received to-day from the East state that the Wheat crop in the Western States are being harvested with great rapidity. In Northern Wisconsin they are likely to have much less choice Wheat than last year. In Missouri and Kansas reports are not so favorable, but in Ohio, Indiana and Michigan, together with Western Canada the crop has been secured in excellent condition.

The following tables give the exports of Flour, Wheat, and Corn from the principal seaport cities East, from Sept. 1st, 1870, to the date opposite each article in the year 1871, with the amounts for the like period of 1868 and 1869:

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Dispensary, on Kearny street, corner of Commercial, San Francisco, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, etc., absorbed into the system! Look at their pallid, sunken and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of married or the enjoyment of life. In this horrid affliction, ... suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering, ... any of these horrible life-destroying maladies, that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his special study for years, and who ... cures the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practiced by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise ... the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove ... to him that he was cured of this complaint by any of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, ... suffering under any of these fearful maladies, ... the sacred responsibility resting upon them ... obtain immediate relief.

DOCTOR GIBBON is responsible ... patient a written instrument, binding himself to effect a radical and permanent cure, or ... charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating ... symptoms, length of time the disease has ... and have medicines promptly forwarded, free from damage and curiosity, to any part of the country ... directions. By inclosing Ten Dollars ... registered letter, through the Postoffice or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.

All communications strictly confidential.

Caution to the Unfortunate.

Beware of the San Francisco ... who, with bogus sworn-to certificates ... Some of the self-styled doctors, ... found in the daily and weekly newspapers of San Francisco and other places, are tradesmen ... too lazy too work at their trades. ... makers, newspaper carriers, intelligence ... Look over the San Francisco Directory ... not find their Medical Institutes ... their former occupations in it ... for 1862 and 1863. The only way ... to make inquiry—it will cost you ... you many regrets; for, as advertising ... cures out of ten are bogus, there is ... any of them, until you know who ... Dr. Gibbon does not deceive ... titles, certificates, pretended ... Gibbon will satisfy persons ... his ability to treat diseases ...
